

SHOTS, etc.™

A nurse vaccination specialist will be here on _____ at _____

in the _____

to provide the following vaccines and services
to those who wish to participate:

Influenza Vaccine (Flu Shot \$20/FluMist Nasal Spray \$35)
Recommended for **everyone** ages 6 months and older, but especially the elderly and those with chronic illness. FluMist Nasal spray may only be given to healthy children and adults ages 2-49. *Do NOT take if allergic to eggs.*

Pneumonia Vaccine \$55
Protects adults of all ages against 23 strains of bacterial **Pneumonia** for your lifetime, if you are healthy! Those with chronic illness or history of pneumonia may need it more often, so consult your physician.

Tetanus/Diphtheria Vaccine \$40
Boosters are recommended for adults every 10 years for protection from this deadly bacterium that lives all around us, in the soil and in our pets! Ask for **Tdap (Tet/Diph/Pertussis) \$65** if you are a new or expectant parent, grandparent or caregiver of an infant or the elderly

Vitamin B-12 Injections \$20
Many people who take these monthly report having more energy and stamina, healthier immune systems, better sleep, less allergies, stress, depression and headaches!

We accept payment by cash or checks made payable to SHOTS, etc.
